# The advantages of studying at CUAS Mainz

## Small and specialised

Social, health and practical theology have been our specialities for almost 50 years now. We teach around 1,500 students to become experts in these fields. The distances around campus are short and the groups are manageable in size. At CUAS Mainz you will be part of a small, personal community of specialists!

## Scientifically sound

As a research university, we impart leading-edge knowledge and expertise, and promote young scientists. From Bachelor's programmes to subsequent Master's programmes and collaborative doctorates – we enable you to take every academic career step in one location.

## No tuition fees

We do not require you to pay tuition fees as an exchange student. As with any university in Germany, you only pay a semester fee for your semester ticket and other services. Nonetheless, you benefit from a small, manageable university that offers you a personal study atmosphere and intensive support options.

## Excellent practical network

Be it welfare associations, health care facilities or non-profit organisations – with our collaborative and practical partners from across the church and society, we form a strong network, combine research and practice and offer you a course programme with a high degree of practical relevance and contacts to future employers.

## Open for diversity

We are a cosmopolitan university and we welcome people of all religions as well as those of no denomination. Incidentally, this also applies to nationality and sexual orientation. As a Catholic university, we are committed to an image of humanity that values others as equals and responsibly shapes mankind.

## At the heart of Mainz

Our campus is located in the middle of the lively student and research city of Mainz. Thanks to its close proximity to the main railway station, CUAS Mainz enjoys optimum transport links - both within the city and to surrounding regions e.g. Frankfurt am Main (including Frankfurt Airport).

# Application

If you are an international student and would like to study at CUAS Mainz, you have come to the right place. Students of our partner universities have the opportunity to study for one or two semesters at CUAS Mainz. We will support you prior to and during your stay and are happy to answer any questions you might have in advance.

Before you can apply for a study exchange at CUAS Mainz, your home university must nominate you via our online portal.
